

# Giti Comfort F50

*An SUV tyre which highlights silence and comfort.*

## FEATURES & BENEFITS

- **Comfortable and Quiet**

- Accurately adjusted tread pattern block length and sorting order, realizing spectrum adjustment of pattern noise.

- Reduces pattern noise, improving the ride comfort.

- Multi-angle design of pattern grooves, to effectively suppress tyre ground noise.

- Reduces noise caused by pumping effect.

- Silent design of tyre outline and construction, and intelligent simulation evaluation method. Reduces noise caused by tyre construction vibration.

- **Energy Saving, Environment Protection**

- Dispersion - improved nano-silica reinforcing material, drastically reducing the amount of friction.
- Restrains rising temperatures and reduces heat from tyres, to save energy and fuel.

- **Wet Driving Safety**

- Improved hydrophilic compound, combining with the sipe system to break through residual water film. Increases the ground area, improving grip strength on wet surfaces.

Giti Noise-Reduction Technology

- ☆ The unique noise-reduction technology not only reduces the noise decibel value, but also improves the ride comfort. Lower rolling resistance and shorter braking distance on wet ground, bring pleasant and safe driving experience to drivers.
