

GitiControl Series

Balancing great driving comfort with strong performance, for a worry-free ride

Giti228V1

A new generation comfort tyre for small and mid-sized sedans with a new compound providing better mileage.

Driving Comfort - Fuel Saving

FEATURES & BENEFITS

- Low noise pattern design = more comfortable drive
- Innovative 3D horizontal groove design - allows for better air flow and reduced sliding noise; 5-segment variable pitch design, combined with PDT noise optimisation analysis, effectively reduces the running noise
- Rigid frame design enhances the rigidity of the middle tread - which reduces the vibration caused by complex road conditions and enhances the ride comfort
- The tyre uses real material - which makes it more durable
- 2-story high-strength carcass ply structure, effective carcass strength - which makes the tyre more resistant to shock damage
- 3D block design - increases rigidity and avoids abnormal wear so the tyre lasts longer

SIZE	CODE	TYRE SIZE	LOAD INDEX	SPEED RATING
16"	100A1663	195/55R16	91	H
	100A3053	205/55RF16	91	V
	100A3052	225/55RF16	95	W
17"	100A2335	235/50R17	96	V
