FEATURES & BENEFITS

Wet grip performance

- **Broad groove**
Effectively drain away water, reduce tyre slip and improve wet grip.

Comfort drive and wear-resistance

- **Optimized pitch arrangement**
Effectively improve noise and bring quiet drive experience
- **3D groove design**
Decreased pattern deformation, well-distributed ground pressure and improved wear-resistance.

Drive safety

- **Extruded strip-shaped pattern block**
Make the tread cling to the ground uniformly and improve wet braking.
- **Bigger pattern block design on outside shoulder**
Add contact area to improve dry/wet braking, lesser sipes make a complete pattern so as to improve handling.
